## Senior QA Engineer

With over 3 years of experience in QA engineering, Salesforce, and API testing, I spearhead manual and automated testing for mobile, web, and API platforms. I mentor new testers and deliver trainings on API testing tools, contributing to improved bug investigation and resolution. My expertise ensures comprehensive test coverage and accurate bug documentation, resulting in efficient collaboration with development teams.

## WORK EXPERIENCE

### Bank Hapoalim 01/2023 – Present Senior QA Engineer (Mobile & Web & API)

- Collaborated with cross-functional teams to streamline QA processes, resulting in improved efficiency and faster release cycles, fostering a culture of quality.
- Fostered a collaborative environment by mentoring new testers and introducing innovative QA methodologies, leading to a 30% increase in team productivity.

### Bank Leumi 01/2022 – 01/2023 QA Engineer (Salesforce & Mobile & Web & API)

- Performed functional, regression, and integration testing in Salesforce environments
- Wrote business process test scripts in Salesforce: Flows, Validation Rules, Process Builder
- Tested Lightning UI to ensure proper user experience

### Bank Hapoalim 01/2021 – 01/2022 junior QA Engineer (Mobile & Web & API)

- Developed comprehensive test scenarios for regression and automation, ensuring 100% test coverage within 3 months, enhancing overall product quality.
- Performed API compatibility tests via Postman
- Recorded sessions in the core system to help developers reproduce issues and deliver findings
